

## Possible Leeds points from using Partition systems products

LEEDS section and credit description	PS-350	Corporate	Executive
--------------------------------------	--------	-----------	-----------

### Materials & Resources

Credit 2.1 & 2.2 Construction waste management	up to 2	up to 2	up to 2
--	---------	---------	---------

Very little of the waste produced during installation would need to be sent to landfill, most can be locally recycled.

Credit 3.1 & 3.2 Resource Reuse	up to 2	up to 2	up to 2
---------------------------------	---------	---------	---------

When the building is renovated our wall systems can be taken apart and the materials re-used in the new configuration.

Credit 4.1 recycled content	up to 1	up to 1	up to 1
-----------------------------	---------	---------	---------

Most of the materials used in our wall systems contain recycled materials

Credit 5.1 Regional materials	up to 1	up to 1	up to 1
-------------------------------	---------	---------	---------

Well over 10% of the materials are manufactured within Alberta, and a good portion are manufactured in Edmonton

### Indoor Environmental Quality

Credit 4.1 & 4.2 Low-emitting materials	up to 2	up to 2	up to 2
---	---------	---------	---------

Our installation process uses very little if any adhesives or sealants on site. The wall surfaces are pre-finished in the factory so there would be little if any VOC's given off on site.
